The Kids Wear Fair will be held from 23rd to 25th June 2025, followed by the Men's & Women's Wear Fair from 14th to 16th July 2025. Both phases will take place at the **Bombay Exhibition Centre (NESCO), Mumbai** and are expected to draw **35000+ buyers from across India**. With exhibition space of **20400+ sqm for Kidswear, 15300+ sqm for Men's Wear, 21200+ sqm for Women's Wear and about 680 sqm for Accessories**, the event will showcase the latest collections from over **580 kidswear brands, over 800 menswear & womenswear brands, and over 40 accessories brands**, offering buyers a comprehensive and category-driven sourcing experience.

Speaking about the current landscape of the industry, **Santosh Katariya, President, CMAI** said *"The 81st edition of the National Garment Fair (NGF) comes at a defining moment for India's apparel industry. Recent policy measures such as the restrictions on garment imports from Bangladesh have opened up significant opportunities for domestic manufacturers. At a time when global supply chains are being re-evaluated and the call for self-reliance is stronger than ever, Indian apparel makers are stepping up with agility and scale. This edition of NGF reflects that momentum, offering a larger platform for homegrown brands and MSMEs to showcase their capabilities and secure meaningful retail partnerships. We are confident that this fair will not only drive business but also reinforce India's position as a resilient and future-ready apparel hub."*

Rohit Munjal, Chairman of CMAI's Fair Committee, added, *"The National Garment Fair (NGF) has continued to receive an overwhelming response year after year. Each edition sees all available stalls booked well in advance, with a long waiting list of members eager to participate—underscoring the Fair's unmatched relevance and credibility in the industry. To address this growing demand and enhance the experience for both exhibitors and buyers, we've introduced a new two-phase format for the 81st edition, allowing for greater participation and a more focused showcase. This isn't just a logistical innovation—it's a strategic response to evolving market dynamics and the industry's readiness to scale."*

On broader business trends, **Anand Chokshi, Joint Chairman, Fair Sub-committee, CMAI**, added, *"As India's fashion and apparel sector evolves with shifting consumer preferences, we are witnessing a growing emphasis on sustainability, value-driven choices, and accelerated fashion cycles. The domestic market is entering a vibrant phase, buoyed by the upcoming festive and wedding seasons, and a clear resurgence in demand. The National Garment Fair has long served as a barometer of industry sentiment, and the 81st edition comes at the perfect time—offering brands a strategic platform to capitalise on festive demand, align with new market trends, and forge valuable retail partnerships."*

Over the years, NGF has earned a reputation as India's largest and most influential B2B apparel trade fair, with each edition witnessing overwhelming participation. This year's innovative format ensures that more exhibitors can showcase their collections, while buyers benefit from a streamlined and category-specific experience.

CMAI invites all stakeholders of the fashion retail ecosystem to be a part of this landmark edition and witness the transformation of the Indian apparel industry in real time.

The 81st National Garment Fair (NGF) - Kidswear Edition, organised by the Clothing Manufacturers Association of India (CMAI), marked a landmark occasion dedicating a trade fair exclusively to Kidswear held from June 23 to 25, 2025, the fair witnessed overwhelming participation, drawing over **15,000 buyers**—including key retailers, distributors, and wholesalers—from across India and **50+** overseas buyers from various countries such as Australia, Bangladesh, Benin, Europa Island, Fiji, Kuwait, Malaysia, Mozambique, Qatar, Saudi Arabia, South Africa, Spain, United Arab Emirates, United Kingdom and USA.

The kidswear edition of the trade show not only reinforced NGF's reputation as the country's largest apparel trade show but also garnered an enormous response from both exhibitors and buyers. The trade show helped attract significantly large bookings, with major orders being secured for the upcoming festive season, highlighting the strong growth momentum in the kidswear segment.

The fair featured about **590** kidswear apparel brands, showcasing their latest collections for the upcoming Autumn/Winter, Festive and Wedding season across an expansive 3.5 lakhs square feet of exhibition space across 3 halls at the Bombay Exhibition Centre, NESCO Complex, Goregaon East, Mumbai.

Witnessing the growth of the Kidswear apparel industry, **Santosh Katariya, President of CMAI** remarked, *"The kidswear segment is emerging as the most dynamic and fastest-growing category within India's apparel industry, projected to grow from US\$22 billion (₹1.87 lakh crore) in 2024 to US\$34 billion (₹2.89 lakh crore) by 2029—an impressive CAGR of 9%. This robust trajectory is underpinned by rising household incomes, increasing prioritisation of comfort and quality by discerning parents, and the expanding influence of digital access and fashion-forward sensibilities. While the broader apparel market is witnessing some short-term moderation in discretionary spending, kidswear continues to demonstrate remarkable resilience. The category is increasingly driven by functionality, style-consciousness, and aspirational buying—particularly in tier-2 and tier-3 cities. With children's apparel now seen as an extension of lifestyle choices for young families, the segment is poised for sustained long-term growth."*

Speaking on the success of the Kidswear Edition at the 81st National Garment Fair, **Rohit Munjal, Vice President and Chairman of the Fair Sub-Committee, CMAI**, said, *"The dedicated Kidswear Edition of the 81st National Garment Fair represents a defining moment—not just for the kidswear segment, but also for how we curate industry platforms in response to evolving market dynamics. Recognising the growing strategic importance of this category, we introduced an exclusive, standalone format to offer sharper visibility and more focused engagement between brands and buyers. I'm delighted to share that this initiative has exceeded expectations. The format enabled buyers to spend meaningful time with exhibitors, resulting in high-quality interactions and encouraging order volumes. The feedback from participants has been overwhelmingly positive. In particular, the strong and rising footfalls—surpassing our projections by Day 2—highlight the clear demand for curated, category-specific trade platforms in today's rapidly maturing apparel ecosystem."*

Some of the notable kidswear retail brands that visited the fair included G3+ (1 store), Paridhan (6 stores), Big Shop (2 stores), Kalyan Silks (23 stores), Pinakin Garments (7 stores), Kings Life Style (4 stores), Kasam Selection (24 stores) and Madan Collection (6 stores). Their participation highlighted the fair's significance as a key platform for sourcing the latest trends and innovations in kidswear, while also highlighting the growing interest and investment in this dynamic segment of the Apparel Market.

CMAI's NGF concludes successfully indicating growing demand for kidswear segment

MUMBAI, JUNE 26—

The 81st National Garment Fair (NGF) - Kidswear Edition organised by the Clothing Manufacturers Association of India (CMAI), marked a landmark occasion dedicating a trade fair exclusively to Kidswear.

The kidswear edition of the trade show not only reinforced NGF's reputation as the country's largest apparel trade show but also garnered an enormous response from both exhibitors and buyers. The trade show helped attract significantly large bookings, with major orders being secured for the upcoming festive season highlighting the strong growth momentum in the kidswear segment.

The fair featured about 590 kidswear apparel brands showcasing their latest collections for the upcoming Autumn/Winter Festive and Wedding season across an expansive 3.5 lakhs square feet of exhibition space across 3 halls at the Bombay Exhibition Centre NESCO Complex, Goregaon East, Mumbai.

Witnessing the growth of the Kidswear apparel industry, Mr Santosh Katariya, President of CMAI remarked, "The kidswear segment is emerging as the most dynamic and fastest-growing category within India's apparel industry, projected to grow from US\$22 billion (₹1.87 lakh crore) in 2024 to US\$34 billion (₹2.89 lakh crore) by 2029—an impressive CAGR of 9%. This robust trajectory is underpinned by rising household incomes, increasing prioritisation of comfort and quality by discerning parents, and the expanding influence of digital access and fashion-forward sensibilities. While the broader apparel market is witnessing some short-term moderation in discretionary spending, kidswear continues to demonstrate remarkable resilience. The category is increasingly driven by

functionality, style-consciousness, and aspirational buying—particularly in tier-2 and tier-3 cities. With children's apparel now seen as an extension of lifestyle choices for young families, the segment is poised for sustained long-term growth."

Speaking on the success of the Kidswear Edition at the 81st National Garment Fair, Rohit Mumjal, Vice President and Chairman of the Fair Sub-Committee, CMAI, said, "The dedicated Kidswear Edition of the 81st National Garment Fair represents a defining moment—not just for the kidswear segment, but also for how we curate industry platforms in response to evolving market dynamics. Recognising the growing strategic importance of this category, we introduced an exclusive, standalone format to offer sharper visibility and more focused engagement between brands and buyers. I'm delighted to share that this initiative has exceeded expectations. The format enabled buyers to spend meaningful time with exhibitors, resulting in high-quality interactions and encouraging order volumes. The feedback from participants has been overwhelmingly positive. In particular, the strong and rising footfalls—surpassing our projections by Day 2—highlight the clear demand for curated, category-specific trade platforms in today's rapidly maturing apparel ecosystem."

Participant at 81st NGF Kidswear Edition - Sandeep Jain, Owner of Suruchi (Indore), expressed, "The weddings in India are all about happiness and meaning family and friends and it is a great opportunity for our kidswear as families are oriented toward traditional weddings, and they go for clothing which suits their tradition and culture."

Rawal Mehta, Owner, My Silk, exhibitor from Surat, said, "Earlier, people used to buy garments according to the festival season. Now that's over, people buy garments as per their requirements. Surat is growing in ready-made, and in particular, lehengas for kids."

Exhibitor from Ludhiana - Varinder Joshi, Business Head of Duke Fashion, said, "Over the past 5-6 years, I have observed tremendous growth in the kidswear market. New trends, fresh fashion styles, and innovative fabrics are constantly being introduced, and

the pace of growth is very fast."

Apoorva Khandhar, Owner of Badboys from Ahmedabad commented, "I'm expecting to receive a lot of orders this season, and we're confident in our ability to satisfy our customers. India is growing across all sectors. In the garment market, I believe customers are no longer focused only on price—they're asking for quality and value for money."

Exhibitor from Delhi, Manish Khurana, Owner of Rivaaz, said, "Kidswear is a big market, but what we make depends on how we make the garments. If we make the best of the best in style and quality, people will like it."

Kanji Patel, Managing Director of Tiny Girl from Mumbai, expressed, "This year, festive period is almost a month earlier than usual. As a result, we are anticipating around 15 to 20% growth this season. Last year was fantastic, every category in kidswear saw growth, with a major focus on co-ord sets, so the market outlook is very positive."

Shubham Bagariya, Chief Marketing Officer, Casa Dee Neeme from Kolkata, added, "The kidswear market, compared to last year, has been somewhat bittersweet. Some areas have performed very well comparatively. Still, kidswear remains a strong market, and I see the forecast for the next 8 to 10 years, it will be healthy and keep growing."

Traders, economists heave a sigh of relief as tensions diminish

Dhirendra Kumar &
Gireesh Chandra Prasad

NEW DELHI

Cautious optimism has begun to seep in across Indian trade, industry, and economic circles amid a fragile calm spawned by a ceasefire between sparring neighbours India and Pakistan.

After intense border hostilities threatened to choke economic activity in key manufacturing and export hubs in the northern and western parts of the country, the ceasefire has brought a measure of relief to industry, four people directly involved in trade and related policy matters told *Mint*.

The closure of at least 32 civilian airports across northern and western India in recent days and heightened checks at ports had started to disrupt trade flows and triggered an exodus of migrant workers from key industrial hubs. Traders are now hopeful that the ceasefire will ease nerves and reverse the migration. Meanwhile, economists do not expect border tensions with Pakistan to impact India's economic growth. They expect the second half of the fiscal to make up for any loss of growth momentum on the back of multiple tailwinds such as a possible trade deal with the US later this year, a trade agreement with the UK that was concluded recently,

predictions of a good monsoon, and strong monetary policy support from India's central bank.

To be sure, with the ceasefire now in place, exporters and owners of manufacturing facilities are cautiously optimistic that migrant workers—from Bihar, Uttar Pradesh, Odisha, Madhya Pradesh, and West Bengal—who had begun to return home fearing prolonged disruptions, will be assuaged.

Due to the migration, production had slowed in manufacturing centres such as Amritsar, Jalandhar, Ludhiana, Surat, Bhuj, Kachchh and Rajkot—where textiles and engineering goods form the economic backbone, they said.

New Delhi/Chennai, May 7

THE LANDMARK INDIA-UK free trade agreement (FTA) will significantly enhance the export competitiveness of India's labour-intensive textile and apparel sectors, unlocking additional export opportunities worth \$1 billion to the UK, according to industry experts.

The FTA could reduce duties on textiles and garments exported to the UK by 8-12%. At present, made-ups like home textiles face an 8% import duty in the UK while woven and knitted garments including baby garments, T-shirts, women apparel as well as processed fabrics attract a 12% duty. The new tariff structure has placed India on par with Bangladesh, which hitherto enjoyed zero-duty access due to its Least Developed Country (LDC) status. The FTA has also given India's apparel

exporters a 12% edge over China's tariffs. According to industry insiders, India's exports to the UK in 2024 included \$655 million worth of knitted apparel such as T-shirts, jogging shorts, and leggings, while woven apparel like shirts, trousers, and dresses accounted for \$754 million. The UK imports \$18-20 billion worth of apparel annually. China

accounts for 21% of the UK's total apparel imports, followed by Bangladesh at 19%. “Historically, India has held only a 5-6% market share in the UK's textile imports,” said Prabhu Dhamodharan, convenor of the Coimbatore-based Indian Textile Manufacturers Federation (ITF). He added that India can be more aggressive in bagging more orders as

the FTA has levelled the playing field with its key competitor, Bangladesh.

A Sakthivel, vice chairman of the Apparel Export Promotion Council said that he expects exports to the UK to double in two years from the current level of \$1.5 billion. Sakthivel, who runs Tiruppur-based Poppy's Knitwear, said, “Unlike Vietnam, Cambodia, Sri Lanka and Bangladesh,

we have inherent strength in raw material. We don't have to depend on imports for cotton yarn, and that's a big advantage.” S Ganapathi, vice chairman and managing director of Gokaldas Exports, said this is a \$1-billion incremental export opportunity for Indian apparel in the UK market but the full benefits of the deal may only materialise by FY27.

“Such agreements are vital for integrating India more deeply into resilient global value chains, strengthening our position as a trusted manufacturing and export partner on the world stage,” added Gautam Hari Singhania, chairman, Raymond Group. Forready made garments, Sudhir Sekhri, chairman of the Apparel Export Promotion Council, said exports are likely to double in the next three years. The India-UK FTA comes at a time when the high tariffs imposed by the US on China has underlined the need to diversify the supply chains away from the neighbouring country. “Post the latest US tariff announcement, there was a strong need to diversify textile exports,” said Santosh Kataria, president of the Clothing Manufacturers Association of India (CMAI).

राइडन चौक और शरिफ डिस्ट्रिक्ट केन्द्र/मुंबई, 19 मई

बांग्लादेश से जमीन के रास्ते भारत में परिधान सहित दूसरी वस्तुओं के आयात पर प्रतिबंध लगने से घरेलू खुदरा कंपनियों पर कोई खास असर नहीं पड़ेगा। उद्योग जगत से जुड़े सूत्रों ने यह बात कही।

विशेषज्ञों का कहना है कि बांग्लादेश से निर्यात बमने के बाद भारत इन्फो भारपाई घरेलू खुदरा से राफ कर जेता बमों के बजा कम रहने से इसमें कोई दिक्कत नहीं आएगी। परिधान उद्योग का प्रतिनिधित्व करने वाले संगठन इंडियन टेक्साइलियर्स फेडरेशन (आईटीएफ) के अनुसार फिले वित्त वर्ष फरवरी तक 11 महीने की अवधि के दौरान भारत ने बांग्लादेश से 61.8 करोड़ डॉलर मूल्य के वस्त्र (नॉट एवं वोरन) परिधानों का आयात किया था। भारत के कुल परिधान आयात में बांग्लादेश को हिस्सेदारी 35-40 प्रतिशत होती है। चीनमस्टर डिस्ट्रिक्ट जवाइंट्स के समीक्षक प्रभु दामोदर ने कहा, "यह शुल्क लाभ के कारण भारत के कारोबारियों बांग्लादेश से बड़े पैमाने पर वस्त्रों का आयात कर रहे थे। मगर अब इनका आयात बमने के बाद स्थानीय स्तर पर उत्पादन को प्रभावित मिलेगा और स्थानीय विनिर्माताओं को काफी मदद मिलेगी।" बांग्लादेश मंत्रालय द्वारा 17 मई को जारी एक अधिसूचना के अनुसार मुंबई के नया चेरा और कोलकाता के

बंदरगाहों के जरिये बांग्लादेश से आयात की इजाजत नहीं दी जाएगी। इससे बांग्लादेश के मायना कार्पोने नहीं हो जायेंगे जिसके भारतीय आयातक इन्फो मंगने से परहेज करने लगेंगे। वस्त्र उद्योगक कंपनी टी टी लिमिटेड के प्रबंध निदेशक संजय कुमार जैन ने कहा, "सरकार के इस कदम से लगान भी बढ़ जायेंगे और समय भी अधिक लगेगा जिससे छोटे आयातकों के लिए आयात कर पना मुश्किल हो जायेंगा। इस समय बांग्लादेश से भारतीय बाजार में आने वाली वस्तुओं पर शुल्क नहीं लगता है।

शुल्क लगता। भारतीय बाजार की एक दिग्गज खुदरा कंपनी ने कहा कि अब घरेलू बाजार से कपड़े उपलब्ध होने शुरू हो जायेंगे। कर्तव्य मैन्यूफैक्चरर्स एसोसिएशन ऑफ इंडिया (सीएफआई) के अध्यक्ष सीपी कटारिया ने कहा, "भारतीय वस्त्र उद्योग पालने से ही विकास कर रहा है कि देशी बाजार में काफी सस्ते परिधान बाजार से आ रहे हैं जिससे घरेलू विनिर्माताओं खासकर एयररस्लेव पर प्रतिकूल असर हो रहा है। सरकार ने सही समय पर यह कदम उठाकर विदेश में बने सस्ते उत्पादों के भारतीय बाजारों में आने के रास्ते बंद कर दिए हैं। इस कदम से वस्त्र उत्पादन में भारत की आय-निर्भरता बहेगी।"

कार्टाया ने कहा कि इस नीति के साथ-साथ सरकार को भारतीय विनिर्माताओं को क्षमता निर्माण में मदद करने के साथ ही कारोबारी सुरक्षा बहाले के उपाय भी करने चाहिए। उन्होंने कहा, "हमारे एयररस्लेव को प्रतिस्पर्धी क्षमता बढ़ाना बेहद जरूरी है। ये कार्य करने के बाद ही घरेलू स्थिति का काफी सुधार होगा। साथ ही हमें अपने उत्पादों को बाजार में लाना होगा।" कार्टाया ने कहा, "हमारे एयररस्लेव को प्रतिस्पर्धी क्षमता बढ़ाना बेहद जरूरी है। ये कार्य करने के बाद ही घरेलू स्थिति का काफी सुधार होगा। साथ ही हमें अपने उत्पादों को बाजार में लाना होगा।"
